Work Experience

Lipsum Technologies Pvt. Ltd.

Jan 2024 – Present

Full Stack Web Developer

- Engineered and maintained solutions across multiple projects, systematically resolving critical bugs and delivering feature enhancements using Laravel, Vue.js, and React.js.
- Architected and deployed full-stack applications leveraging Laravel's REST API framework, secure authentication systems, and interactive Vue.js dashboards.
- Successfully delivered enterprise-level projects from conception to deployment while adhering to strict quality standards and timeline requirements.
- Spearheaded collaborative development efforts with cross-functional teams, performing comprehensive code reviews and implementing Git-based version control workflows.

Key Projects:

Next.js Projects

AI Finance Prep

<https://aifinanceprep.com/>

- Developed and enhanced features for an AI-powered interview preparation platform.
- Built responsive UI components and implemented new functionality for personalized coaching, feedback systems, and question libraries.
- Technologies:** Next.js, React.js, Tailwind CSS

VixSpike

<https://vixspike.com> (Staging: stg.vixspike.com)

- Worked on a Next.js project with a primary focus on achieving pixel-perfect responsiveness for mobile devices based on provided Figma designs.
- Translated design specifications precisely into polished, mobile-optimized UI components ensuring visual fidelity across all screen sizes.
- Technologies:** Next.js, Tailwind CSS

Nuxt.js Projects

Membr.ai

<https://membr.ai/>

- Enhanced user dashboard functionality for an AI-powered membership management platform, implementing new feature modules.
- Contributed to frontend development and user experience improvements across multiple dashboard components.

- **Technologies:** Nuxt.js, Vue.js

Laravel Projects

Multi-vendor Events Platform

<https://www.kulturgehtweiter.de/>

- Worked as a full-stack Laravel & Vue developer enhancing both backend and frontend functionality.
- Improved system performance and user experience across multiple modules.
- **Technologies:** Laravel, Vue.js, React.js, MySQL, Bootstrap, CSS

Mass Vehicle Security

<https://massvehiclesecurity.co.uk/>

- Developed and enhanced admin dashboard features for a vehicle security platform specializing in tracking systems, alarms, and immobilizers.
- Implemented dynamic data tables using jQuery DataTables for efficient fleet management and security monitoring.
- **Technologies:** PHP, Laravel, Blade, jQuery, DataTables

Charitag

<https://www.charitag.com/>

- Developed interactive and data-driven administrative dashboards on the frontend, based on provided Figma designs.
- Implemented reusable UI components and managed complex state transitions to enhance the overall user experience.
- **Technologies:** React.js, Tailwind CSS

PropHosting

<https://prophosting.com/>

- Built comprehensive admin dashboards and user-facing interfaces for a property hosting management platform.
- Integrated backend logic with frontend views to deliver seamless property management experiences.
- **Technologies:** PHP, HTML, CSS

iCabinets

<https://icabinets.me/>

- Implemented custom JavaScript animations and interactive elements for a premium cabinetry and interior design showcase website.
- Enhanced user engagement through smooth transitions and dynamic visual effects across product galleries and landing pages.
- **Technologies:** WordPress, JavaScript, Custom Animations

Education

Bachelor of Science in Computer Science

COMSATS University Islamabad, Pakistan

2020 – 2024

Language Skills

English (Fluent) | Urdu (Native) | Pashto (Native)
